

Advanced Lecture in Technical English

4 units (selection)

Teacher of course

Target The purpose of this subject is to develop the ability of reading comprehension of English technical papers of each special field.

Outline First, a technical paper of each special field is selected by students according to their teacher's instruction. Next, understanding of selected paper and translation of it into Japanese are made. Finally, translation reports are submitted and presented to their respective teachers. Number of papers selected in each semester is one.
