

Advanced Exercise on Biological Science and Technology

2 units (compulsory)

Teacher of course

Target To obtain broad information in addition to information on own field

Outline To learn recent biological technology and experimental techniques

Style Portfolio

Keyword *biology, technology, experiment*

Relational Lecture “**Engineering of Genetic Information**”(0.5), “**Technology of Enzyme Functions**”(0.5), “**Cell Signaling System**”(0.5)

Requirement N/A

Notice N/A

Goal To understand recent biology and biotechnology

Schedule To learn recent biotechnology under direction of a teacher working on bioengineering

Evaluation Criteria Evaluated with portfolios

Textbook Not specified
